

## RDA Partnership Application Form

The [Restoration Decade Alliance](#) (RDA) is a network of Australia's pre-eminent environmental organisations, united in our collective efforts to support the goals of the [UN Decade on Ecosystem Restoration](#).

**Partner organisations** are organisations of good standing\* whose core activity is not ecological restoration but which is sympathetic with, informs, or supports ecological restoration. Partners enhance the RDA's reach and ensure the RDA is well-informed about relevant opportunities and constraints. Partners are not primarily focused on restoration but can include ecological societies, conservation networks, farmer groups, and ancillary support organisations.

### **Partner groups receive the following benefits:**

- Opportunity to contribute to (and collaborate with) an important alliance of Australian restoration organisations (and all the benefits that collaboration could bring) e.g.:
  - promoting targeted action by Australian communities in the Decade
  - sharing best-practice knowledge
  - influencing national and state policies etc as a 'single voice';
- National amplification of a group's stories and events through social media highlighting their role in meeting the goals of the UN Decade on ER;
- Receipt of RDA e-news (subject to funding);
- Email communication of any collective RDA campaigns and communication initiatives (as appropriate);
- Ability to use the RDA logo in promoting their projects that support the goals of the UN Decade on ER; and,
- Guest status at RDA meetings to which the group is invited (where relevant).

### **The RDA asks, in return, that the Partner (to the level suited to the Partner):**

- Reciprocates sharing of opportunities for collaborative and synergistic action; and,
- Reciprocates sharing of information relevant to the Decade and pursuing its goals.

*\*The RDA Steering Committee reserve the right to review a Partner's status at any time.*
